

BC Cancer ST Program Updates for December 2023

AFFECTED APPLICATION(S)	PowerChart: Oncology/Hematology Regimens and PowerPlans
AFFECTED AREA(S)	BC Cancer VC/Vancouver General Hospital (Oncologists, Oncology Pharmacy, and Oncology Nursing Staff)
NET NEW, OR UPDATE TO EXISTING BUILD	Update to Existing Build

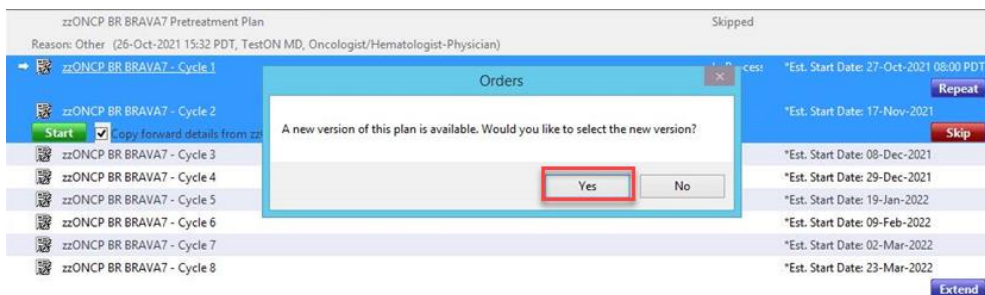

What has Changed?

Any changes released that affect Oncology Regimens and PowerPlans/Cycles for the **BC Cancer Systemic Therapy (ST) Program** will be communicated monthly via Special Bulletin.

These notification changes are important for Nursing staff, Pharmacy, and Providers to be aware of for their patient's care.

For Providers:

- For PowerPlans that are versioned: If your patient has already started on a Regimen, when you order the next cycle PowerPlan, a pop up window will appear to indicate a new version is required.
 - Click **Yes** to accept the new version.
 - **Do not** use the Copy Forward functionality to ensure that the updates apply.

- **IMPORTANT**: Any change from the standard treatment regimen (dose modification, addition of pre-med, etc.) in the previous cycle will need to be manually added to the cycle that is being ordered with the new version (see additional documentation regarding versioning)

Please see this month's changes below:

PowerPlan: BRAVPALAI, BRAVPBFLV, BRAVRIBAI

Cycles/PowerPlans: ONCP BR BRAVPALAI Continuous Hormonal, ONCP BR BRAVPBFLV Continuous Hormonal (3 Months) Cycle 2, ONCP BR BRAVRIBAI Continuous Hormonal

Changes:

- Removed Buserelin order sentence for 6.3mg, subcutaneous, q6week.** Now only contains two order sentences.

Treatment Regimen	
Choose ONE aromatase inhibitor:
