

BC Cancer Agency

CARE + RESEARCH

An agency of the Provincial Health Services Authority

Fraser Valley Centre

December 11, 2013

The Fraser Valley Centre has experienced an increasing demand for chemotherapy services.

To meet our current patient needs we will be operating the Fraser Valley Centre chemotherapy unit an additional two Saturdays each month.

Typically, treatments will be provided between 8:00am to 3:00 pm on Saturdays. Patients will be notified as early as possible of their treatment appointment dates and times, and we will do our best to accommodate schedules.

Services provided at the Fraser Valley Centre on Saturday will be limited to chemotherapy treatment only. Other supportive or non emergent services will not be available (such as requests for prescription refills, general inquiries or other concerns). These types of concerns should be addressed with a nurse, your medical oncologist or your general practitioner during the regular business hours.

We appreciate your support and patience as we work to implement further strategies to meet the demand for chemotherapy services.
